

RO-TRADITIONAL

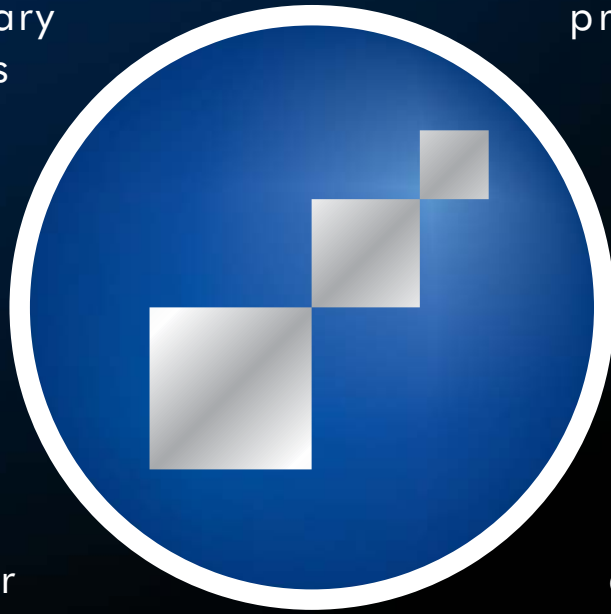

Evergreen design, simplicity and quality

Crobal Water
water filtration company

Introduction

Crobal Water is a Latvian based company through the world. Our main goal is to produce high-quality, revolutionary Reverse Osmosis products based on purification method. Our products use newest technologies which provide perfect brand positioning and advantage for each of our partners in local and worldwide market. Our devices are simple in use, and innovative, what makes them a perfect companion for any office space. Working with us always pays off double, for you and your client.

company with partnerships goal is to produce high-products based on purification method. newest technologies perfect brand competitive each of our European and market. Our designed to be attractive by design makes them a any office space. pays off double, for you

RO-TRADITIONAL-Series

RO-TRADITIONAL-Series is generally oriented in household usage, though its possibilities of modifications make this model a widely adaptable device.

Devices from these series, ordered in bigger quantities are truly a DIY (Do It Yourself), without necessity to use your own hand power, we can modify, adjust, configure and color this device to any of your even wildest dreams. Since this device has such wide specter of modifications, we shorten TRADITIONAL-series to 4 main types:

- TRADITIONAL-I
- TRADITIONAL-II
- TRADITIONAL-III
- TRADITIONAL-IV

These types differ from each other based on their configuration. Main differences varies from device without any electrical components and 3 stage purification, ending on 7 or 8 stage purification with computer controller, pump and UV-lamp. The choice is yours.

RO-TRADITIONAL-Series

	RO-TRADITIONAL-I	RO-TRADITIONAL-II	RO-TRADITIONAL-III	RO-TRADITIONAL-IV
Size	330 x 100 x 430 mm			
Wall Hanging type	Yes
